

# Try out Biosamples

- Go to <https://pals-seek.sysmo-db.org/>
- Login and choose Biosamples tab
- How many cell cultures are created by Olga Krebs
- Could you find the sample with ID = 26
- Create one new strain for your project
- Could you find it after creation
- Could you update it?
- Could you delete it?
- Create one new sample and cell culture for your project
- Could you find them after creation?
- Could you update them?
- Could you delete them?

# Open questions & Feedback

- Group work
- Please give us feedback about:
  - Biosamples UI
    - What make you confused?
    - Where do you struggle with when doing the tasks?
  - Master template
- Open questions:
  - Which information else do you need to describe strain/cell culture/sample?
  - Treatment: at which level should it belong to?
